What is Murder Mystery Theatre

It's a fundraising event in our area that is sure to bring mystery, intrigue, fun and laughter. Guests are invited to solve the mystery as they enjoy fine food and drink. Who is harmless and who is to be feared? Will you be forced to do the detective work when everyone could be in danger? Could YOU be one of the victims or even the murderer!? Do you have an alibi?

When & Where:
Saturday, October 18, 2014 at the new Weber Center for Performing Arts, 428 Front Street South, La Crosse, WI
Proceeds will benefit the Local Lupus Alliance to help raise awareness of the mysterious and devastating disease, lupus.

What is Lupus?
Lupus is a chronic, autoimmune disease that can damage any part of the body (skin, joints, and/or organs inside the body). There is no cure and no known cause and it can be fatal. In lupus, your immune system, which is the part of the body that fights off viruses, bacteria, and germs, cannot tell the difference between foreign invaders and your body's healthy tissues and creates auto antibodies that attack and destroy healthy tissue. These auto antibodies cause inflammation, pain, and damage in various parts of the body. The Lupus Foundation of America estimates that 1.5 million Americans, and at least five million people worldwide, have a form of lupus.
